Education

K J Somaiya College of Engineering, B.Tech in Electronics and Computer Engineering Oct 2022 – Jun 2026

- **Key Coursework:** Object-Oriented Programming, Data Structures, Analysis of Algorithms, Database Management Systems

Experience

Software Developer Intern, Hindalco Industries Limited – Talaja May 2025 – July 2025

- Built and optimized PL/SQL procedures for data retrieval and insertion.
- Gained hands-on experience with Oracle SQL, Workflow Builder, Form Builder, and Report Builder.
- Contributed to the Toller Blockchain Auto Scrap Receiving process.
- Involved in generating a new Lot Ticket Series for FCL plant tracking.

Frontend Developer Intern, KJSCE – Mumbai Jul 2024 – Dec 2024

- Developed the frontend for a college-wide Allotment Software using React.js for course registration.
- Engineered 6 responsive pages with 20+ reusable React components, enhancing user experience.

Projects & Hackathons

PokéGuess: Pokémon Guessing Game [Link](#)

- Developed a Wordle-inspired daily Pokémon guessing game with a React frontend and Python/Flask backend.
- Implemented features such as progressive hints, a fuzzy matching search algorithm, and a mobile-first responsive UI.

AI Healthcare Platform – Codenovate 2024 (Winner, Best in Category)

- Designed and implemented a full-stack AI web application in 24 hours during a national hackathon.
- Built a responsive UI using **React.js**, integrated backend APIs via **Flask**, and used MongoDB for data handling.

Smart Farm Automation System – Parul-Hackverse 2025 (Finalist)

- Built an IoT-based solution for real-time sensor monitoring and farm water management.
- Visualized sensor data using a web dashboard with automated PDF export functionality for analytics.

WhatsApp Stats Checker [Link](#)

- Created a web application to analyze WhatsApp group exports and provide message count statistics per participant.

Skills

- **Languages:** Java, Python, PL/SQL, JavaScript, HTML, CSS
- **Databases:** Oracle, MySQL, MongoDB, PostgreSQL
- **Frameworks Technologies:** React.js, Flask
- **Developer Tools:** Git, Github, VS Code, Pycharm

Extracurricular Activities

Digital Marketing and Content Writing Intern, KJSCE Jun 2023 – Jul 2024

- Coordinated and wrote content for the college's official Instagram, Facebook, and LinkedIn handles.
- Created and published over 120 social media posts, maintaining brand consistency and engagement.

Football Player, KJSCE MFA Leagues 2015 – Present

- Represented the college in multiple inter-collegiate tournaments across Maharashtra.
- Played in official Mumbai Football Association (MFA) Leagues for various clubs.
